### **DETAILED ACTION**

Claims 1-20 are pending in this application.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, drawn to a film-forming composition, classified in class 424.
- II. Claims 10-19, drawn to an article, classified in class 428.
- III. Claim 20, drawn to a disposable absorbent article, classified in class 428.

The inventions are distinct, each from the other because:

Inventions I and (II and III) are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process as claimed can be practiced with another materially different product such as deodorant, antibacterial wipes, delivery of pharmaceutical agents.

Inventions II and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the article can be a stick, stick

casting, canister, roller, pump spray or trigger spray. The subcombination has separate utility such as being an absorbent article.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

### ***Conclusion***

1. Claims 1-20 stand restricted.
